

- AUXMAR COMPASSES

The new AUXMAR compasses have been produced in cooperation with Autonatic Instrumental.

A line of attractively designed, AUXMAR compasses, featuring an exclusive, innovative rose has been produced using Autonatic technology and the experience built up by Auxmarine during over 30 years' activity in the sector.

Two models are available:

- Slow reading. Designed for easy assembly. Bayonet base for rapid removal from standard mounting bracket. Compass body can be rotated by 90°, 85mm diameter rose, 12V. Cover included

- Slow reading designed for built-in assembly on compact surfaces. Illumination 12V. 85mm rose. Cover included.

Both models are available with either a blue or a black rose.

- Electronics / Equipment - Hall S – 1A - Stand E1 / E3 / E5 / E7 28 / A 30
